PROFILE

My journey in web development began as a hobby and evolved into a professional career driven by a passion for building high-quality web applications. I am a Full Stack Web Developer with 2 years of professional experience developing and maintaining web applications using PHP, Laravel, React, JavaScript, jQuery and MySQL. I have hands-on experience integrating third-party APIs, developing RESTful APIs, deploying and maintaining production applications on Linux servers, and collaborating with cross functional teams. I enjoy solving complex problems, writing clean and maintainable code, optimizing application performance, and continuously learning new technologies to build scalable and reliable software solutions.

WORK EXPERIENCE

- **Linn IT Solutions Co., Ltd.** 2024 - PRESENT
Full Stack Webdeveloper
 - Developed and maintained business applications including CRM, Service Management System (Mini ERP), HRM, MSME Administration Portal, Meeting Agenda Management System, Coupon Management system, Lucky Draw Management System (NPTDC - Thukha Taw Win Housing Project), and reporting systems.
 - Built full-stack web applications using PHP, Laravel, React, JavaScript, jQuery and MySQL.
 - Designed and developed RESTful APIs and integrated third-party APIs for payment system, notifications, cloud storage, and other external services.
 - Optimized application performance by improving database queries, fixing production issues, and enhancing system scalability and reliability.
 - Deployed and maintained production applications on Linux servers, configuring Nginx, Supervisor, Cron Jobs, Queue Workers, and using Git for version control and deployment.
